DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: p. 6, line 6 and p. 9, line 23, a reference identified by a docket number.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 6, 16, 24 & 34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Trademarks may not be used in claims; trademarks may change with time and hence would render a claim indefinite.

Allowable Subject Matter

Claims 1-5, 7-15, 17-23, 25-33 & 35-37 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach a method and apparatus for capturing radiation in which the first chamber having a first axis receives and absorbs the beam of radiation and a second chamber having a second axis that is not collinear with the first axis receives a portion of the beam and is configured to absorb at least a portion of the beam of radiation such that substantially all of the radiation is absorbed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See US PTO-892.
